

RADIO

Look at the image below; there are two questions you can ask about it:

- 1) What is it? What does it look like?
- 2) What shapes can you see in the image?

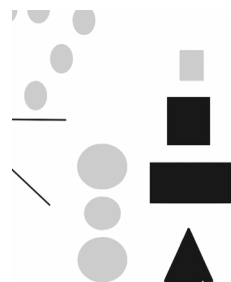

- 1) It looks like a radio / microwave or TV.
- 2) There are two squares, one smaller square is inside the other bigger square. To the right of the smaller square there are three black circles in a row. What do these look like? They look like controls or knobs.
- 3) How would you describe these shapes? Which is a horizontal row of three circles? Which is a diagonal row of three circles? Which is a vertical row of three squares? Which is a horizontal line etc.?

- 4) What shapes can you see on the right?

Use these words: 'vertical, larger ovals, smaller oval, small, large square, rectangle, triangle'. Example: The small square is above the large square.

5) Look at the picture grid, choose an image, **ONLY DESCRIBE THE SHAPES** you can see in the image. The others must first guess which image you chose and second, guess what it might be.
